Bag & Baggage Productions

Proudly Presents...

Much Ado About Nothing

By William Shakespeare • Adapted by Gordon Barr

July 11–28
If you’re a longtime Bag&Baggage patron, you may have noticed that we’ve given that ampersand in our company name more and more attention throughout the years — our current branding prominently features the “&” logo with very little other text, there’s a huge ampersand projected onto the wall behind our bar, and you can even buy a trendy B&B ampersand tote bag in the lobby while you’re at the show today. In some ways, it’s simply a catchy symbol to co-opt. But just like you’ve come to expect of the shows we produce, even with our logo, there’s more than meets the eye.

That little word “and” is a pretty important one when it comes to theatre-making: for us, that ampersand bears the hallmark of collaboration. In acting school, we are always challenged to say “yes, and…’’ — not only affirming an idea or a note, but building on it, as we take it and run into new territory. As theatrical designers, we bounce ideas off of each other as we create the world of a production, each brainstorm sparking a new one that begins with an enthusiastic “and’’: In our performance spaces, we bring together complete strangers to have a shared experience as audience members, begging your imaginative collaboration with us and with the person down the row from you.

And while it looks pretty cool on a t-shirt, this ampersand is more importantly an invitation to you: to affirm and dive in; to engage and question; to enjoy and walk out of the theater with something new.

Thanks for being here today. We’re excited to collaborate with you!

Cassie Greer, Artistic Director

We marked the 50th anniversary of the Stonewall Uprising just a few weeks ago on June 28th, remembering an event that catalyzed the gay rights movement in the United States and around the world. The relevance of this anniversary is not lost on me as we take on Gordon Barr’s adaptation of *Much Ado About Nothing*, featuring two male lovers at the heart of the story. And following a June full of rainbow flags flying around the Portland Metro area, and featuring Hillsboro’s first ever Pride event, it’s easy to get the impression that LGBTQ rights have never been more visible, trendy, and easy to outwardly display.

And yet, the rights of transgender military personnel are continually being called into question in our country; videos keep popping up on my Facebook feed featuring government officials in various localities railing against LGBTQ individuals and calling for the removal of their rights — if not a downright removal of their personhood; the murder rate of trans women — and specifically trans women of color — is rising instead of declining; and less than two years ago, a Pew Research Center study found that a third of all adults in our country believe that our society has gone too far in accepting transgender people. It makes me wonder about the progress that has been made, and the work that is left to do in ensuring that our country truly does uphold the “equal rights” that the 14th Amendment of our Constitution purports to defend.

I’ve also been thinking about the reality that theatre, throughout history, has been a platform where artists and audiences have flocked to respond to the realities of their present society — either to hash out challenges, escape discomfort, propose new structures, mock the establishment, or one of myriad other ways of processing real-life issues. This reality is the thing that keeps me walking into the rehearsal room show after show: the prospect that we can — creatively, thoughtfully, empathetically — provide a space for artists and audiences to work through the “stuff” that occupies our lives, and the idea that we just might be able to bring people together into conversation as we do.

In short, I want to talk. I want to talk about the challenges we face, the things that make us uncomfortable and that we don’t understand, and those issues and ideas that deeply matter to us — and to me. And when I think about all of the realities swirling around this *Much Ado* script, those are the issues I want to engage.

This show provides a space that attempts to normalize the sometimes-controversial idea that gender is a construct and can be approached with fluidity; that sexuality isn’t something people have a choice about or can be “converted” from; that gender identity is a person’s decision; and that, in fact, we all could stand to ask ourselves how much we’re influenced by the binaries presented to us by our current culture.

The title of this show is “Much Ado About Nothing.” That “Nothing” in Shakespeare’s 1599 England would have been a homonym of the word “noting” — literally meaning to take note, to observe, or to document. You will see the characters on stage taking note throughout the show — sometimes surreptitiously, sometimes openly — and this is also an invitation I issue to you:
See us. Observe. Take note.

Pay attention to what moves you. To what rubs you the wrong way. To the things you find hilarious and the things you find appalling. To those bits of humanity you resonate with and those you are repelled by. To the way you feel. To the things you hold on to.

And then respond. Talk to the person sitting next to you. Write me an email. Grapple with the difficult things instead of dismissing them. Imagine yourself in another person’s shoes.

Let’s see if at the end of all of this, we might be able to make a little more progress.

WILLIAM SHAKESPEARE
Preferred Pronouns Unknown
(PLAYWRIGHT)
William Shakespeare was born in Stratford-upon-Avon on 23rd April 1564. His father William was a successful local businessman, and his mother Mary was the daughter of a landowner. Relatively prosperous, it is likely the family paid for William's education, although there is no evidence he attended university. In 1582 William, aged only 18, married an older woman named Anne Hathaway. They had three children, Susanna, Hamnet, and Juliet. Their only son Hamnet died aged just 11. After his marriage, information about the life of Shakespeare is sketchy, but it seems he spent most of his time in London, writing and acting in his plays. Due to some well-timed investments, Shakespeare was able to secure his finances, leaving time for writing and acting. The best of these investments was buying some real estate near Stratford in 1605, which soon doubled in value. It seemed Shakespeare didn’t mind being absent from his family – he only returned home during Lent when all the theatres were closed. It is thought that during the 1590s he wrote the majority of his sonnets. This was a time of prolific writing and his plays developed a good deal of interest and controversy. His early plays were mainly comedies (e.g. Much Ado about Nothing, A Midsummer’s Night Dream) and histories (e.g. Henry V). By the early 1600s, Shakespeare had begun to write plays in the genre of tragedy. These plays, such as Hamlet, Othello, and King Lear, often hinge on some fatal error or flaw in the lead character and provide fascinating insights into the darker aspects of human nature. These later plays are considered Shakespeare’s finest achievements.

SUSTAINING SUPPORT

The names listed below are our very first ever Bag&Baggage Sustaining Supporters – and you can join them! You probably know the model from OPB: these are monthly donations, in smaller amounts, that provide a nonprofit like Bag&Baggage with ongoing, consistent, and predictable support year-round. Donations like this mean that we can plan better: they help eliminate cash-flow challenges, and they allow us to leverage larger donations and grants from trusts and foundations.
